Futures Consulting
San Antonio,
TX 78201.

Dear Hiring manager,

I am writing in response to your job posting on Indeed for a Civil engineer.

Job responsibilities are conducting an initial design review. Evaluates the design for compliance with the scope of work, project schedule, and cost constraints. Makes recommendations on the design modifications. Completes the design by the scope of work and the project schedule. Interfaces with the project team to define the work scope and schedule, establish the project budget, and initiate the project documentation. Assists in developing the project schedule and works with the other Project Team members to achieve the Project Objectives. Conducts initial design evaluations to determine cost-effective solutions to the project issues. Negotiates and manages changes to the scope of work and the project schedule by the Project Objectives and the budget, and communicates the modifications to the Project Team.

I have completed my graduation from R.V.R. & J.C. College of Engineering. I worked as a Quality controller in an Amaravati Development Corporation based on quality. I am interested in the Civil engineer position, which is the main reason for applying to this position at your company because Future consulting company has an extensive infrastructure and a good brand image in society. Working in your company can gain more ability, skills and more over best experience.

I am a fast and quick learner in social and academic situations, adaptable, and mature. Looking forward to hear from you.

Sincerely,
Yarapathineni Manoj.
